

Advance in Safety, Power Features of '56 Chevrolet

Sweeping advances in durability, safety and power, paced by a new 205-horsepower V8 engine, headline the engineering achievements in the 1956 Chevrolets, on display tomorrow at Paul's Chevrolet, 1640 Cabrillo Ave.

The horsepower boost, giving added zip for passing and pull-

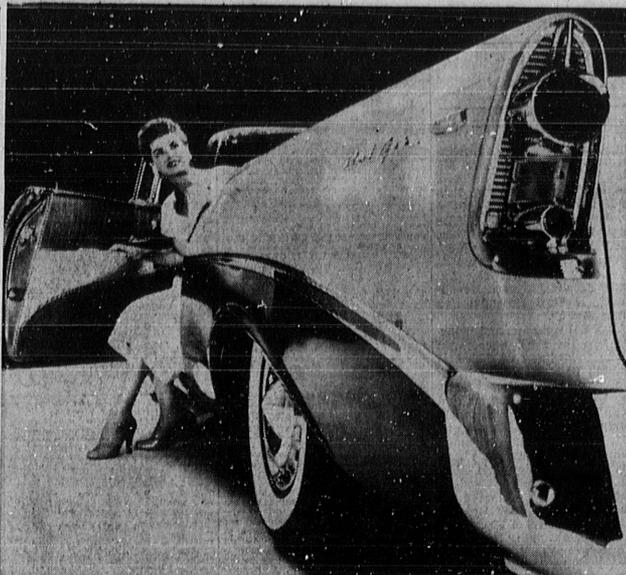

ing out of tight spots, runs the gamut of Chevrolet's line of passenger car engines, beginning with a 140-horsepower six featuring an 8-to-1 compression ratio. This engine, available with standard, overdrive or Power Glide transmission, replaces 123 and 136-horsepower sixes in the 1955 line.

The 1956 line offers a choice of three V8s, including a 162-horsepower engine for cars with standard transmission and a 170-horsepower engine designed for Power Glide.

The 205-horsepower Super Turbo-Fire V8, hiked from 180 horsepower last year, has a new Chevrolet compression ratio high of 9.25 to 1.

The entire line of engines, both V8s and sixes, have redesigned highlift camshafts and hydraulic valve lifters. Full advantage of the optional "power package" introduced last year is extended to all 1956 station wagons through a redesigned fuel tank which permits use of a dual exhaust system on these models for the first time.

Two of the key advances providing durability for the V8 engines are a new clutch facing offered as regular equipment and an optional full-flow oil filter.

THE PATTERN FOR '56... The accentuated rear fender treatment on the 1956 Chevrolet is among the unusual features of the new models on display here this week end at Paul's Chevrolet, 1640 Cabrillo Ave. The gasoline filler is concealed by the rear left tail lamp, which is hinged and swings downward out of the way. Most models of the Championship auto will be on display at the local showrooms beginning tomorrow.

Chest Drive Opens Here

Residential solicitation in the 1955-56 Torrance Community Chest campaign got off to a good start yesterday as approximately 540 neighborhood volunteers started ringing doorbells throughout the city on behalf of 168 Red Feather agencies.

Although no returns are available yet, Mrs. Betty Rowell, Torrance residential chairman, said she is confident that residential workers will reach or surpass their goal of \$4714 this year.

Mrs. Rowell said she was pleased to report that more than enough volunteers were enrolled by early this week for the solicitation, although it was previously thought that Torrance might be short of the number of neighborhood workers needed.

Neighborhood volunteers assembled at the homes of their section chairmen at 9:30 a.m. yesterday to receive solicitation kits and to watch, at 10 a.m., the special TV show for this year's Community Chest volunteers.

OWEN P. LAKE
... New Export Manager

National Supply Export Division Office Opened

Rapidly increasing activity of American drilling contractors and all companies in foreign fields has prompted the National Supply Company to open a branch office in Torrance for its export division, it was announced here yesterday by John Spalding, Torrance Works manager.

The office is intended to be of particular service to California companies that have oil operations abroad and that need assistance in their specialized procurement and shipping problems.

Owen P. Lake is manager of the office, and is assisted by A. A. Martin.

Lake joined the company in 1923 in the sales order control department, and was transferred to the export division in 1941. Martin started at the Torrance plant in 1946 and became sales order control clerk in 1947.

National Supply is the world's largest manufacturer and distributor of oil field machinery and equipment. The export division has its headquarters in New York. It has other branch offices in London and Paris, and operates through the National Supply Co. of Venezuela, C. A., a wholly-owned subsidiary, in that South American country.

The office is intended to be of particular service to California companies that have oil operations abroad and that need assistance in their specialized procurement and shipping problems.

Hedlund Held For Trial in Hill Attack

After listening to a 14-year-old girl's account of how she was attacked by six youths in Palos Verdes last week, the alleged leader of the gang was ordered held for Superior Court trial on nine felony counts Tuesday.

Eugene R. Hedlund, 19, of Artesia, heard the girl tell him, "You rat! I hope they put you away for good!" Arrested Oct. 25 with five other teenage boys, he is charged with four counts of robbery, and one each of automobile theft, child molestation, sex perversion, criminal attack, and kidnaping.

The other five boys, all under 18, are being held for charges in juvenile court.

The weeping girl said she was dragged from a parked car by the six youths near the Wayfarer's Chapel and taken to a spot in Palos Verdes. Hedlund ripped off her clothes and attacked her, she said. Several other witnesses testified.

Although Public Defender John Breitman moved that the kidnaping robbery charge—which could carry a death sentence—be dismissed, Judge John Shidler overruled the motion.

Hedlund will appear in Superior Court in Long Beach on Nov. 15. His bail was set at \$20,000 and he was remanded to County Jail.

Hearing for Formby Will Be Tomorrow

A 19-year-old man whose wife said she talked him into committing several burglaries to get her "pretty things" was arraigned on two counts of burglary in South Bay Municipal Court, Tuesday.

Travis Formby, of 18616 Figueroa St., was held for \$2500 bail by Judge John Shidler and is scheduled to appear for a preliminary hearing tomorrow. Meanwhile, petitions have been filed in juvenile court for action against his 15-year-old wife, Emma, who was found in a Palos Verdes home Friday night.

Mrs. Formby was captured in the Palos Verdes home of Lloyd Shelnie, Friday, and her husband was picked up shortly afterward at the couple's home. Deputies found more than \$1000 in clothing, jewelry, and other goods allegedly stolen, in the trailer home.

Thieves Get \$500, Liquor In Burglary

The persons who burglarized the Circle Inn Cafe, 2011 Pacific Coast Hwy., Lomita, may have hidden themselves until the place closed, sheriff's deputies surmised Monday.

Charles T. Rippey, Jr., the owner, said that \$500 cash and three cases of liquor, valued at \$180, were taken. Since there was no break-in, deputies thought the burglars may have hidden themselves until the cafe closed at 2:30.

The thieves apparently used a key which they found in another part of the premises to get the cash, while they broke in the liquor storage room.

GENERATING POWER

Coal produces 66 percent of the electricity generated in the U.S.

Avalon Village Stock Purchased By New Yorkers

A New York syndicate headed by Joseph Robbins has purchased all stock of Avalon Village Co., owner of 458 housing units on approximately 30 acres at 220th St., and Avalon. It was revealed here this week. The price was said to be in excess of \$2,500,000.

The Avalon Village Co., syndicate was headed by Edmond H. Herrscher, Beverly Hills and San Francisco financier.

Robbins, who heads the new buying syndicate, is a New York investor.

Hearings on PV Dump Site Set Nov. 17

Public hearings on an application of six South Bay sanitation districts to establish a refuse dump in the Palos Verdes hills has been scheduled for Nov. 17, by the County Zoning Board.

The property contains approximately 150 acres of abandoned diatomite mining pits south of the Walteria section of Torrance and is one of the four contemplated by the county to handle the county's mounting rubbish disposal problems.

County Sanitation Districts Nos. 1, 3, 5, 8, 19, and South Bay Cities have filed the zone exception request through A. M. Rawls, chief engineer of the county sanitation districts. A zone variance is needed for the dump operation as the site now is located in an M-1 (light manufacturing) zone.

An 83-acre site lies east of Orenshaw Blvd., and another acre lies west of Orenshaw south of Pacific Hills.

The County Zoning Board will make a recommendation to the County Regional Planning Commission following the Nov. 17 hearings.

Labor Fight Brings Arrest

Two men, one of them from Lomita, are free on \$10,000 bail each after being apprehended by San Diego authorities Tuesday on a charge of carrying a concealed weapon.

The two, John E. Anderson, 37, of 25110 Pennsylvania Ave., and Carroll W. Weathers, 37, of North Hollywood, were reportedly in the Border City for labor negotiations between the Butchers' and Retail Clerks' Unions. Anderson is agent for the Clerks' Union, 770, of Los Angeles, according to authorities.

San Diego Police reportedly were tipped off that Anderson was carrying a weapon. They found a gun in the trunk of the Lomitan's automobile.

The two unions currently are the subjects of inquiries by the San Diego County Grand Jury, which is looking into trouble which erupted over the handling of frozen food containing meat.

Seven Local People Hurt

Seven local residents suffered injuries Saturday night in Wilmington in two car crashes.

Robert R. Burnside, 38, of 4049 Via Pima, his wife, Katherine, 38, and their four children, John, 12; Robert, 8; William, 4; and Bruce, 2, reportedly were injured seriously when the Burnside's car hit a power pole. Authorities say Burnside apparently fell asleep at the wheel.

George Kane, 33, of 23877 Ward St., suffered serious injuries when his car was involved in a collision at the scene of the Burnside wreck.

The Burnside family members were taken to a San Pedro hospital for treatment.

Governor to Visit Torrance on Nov. 17

A reception honoring Gov. Goodwin J. Knight and Assemblyman Charles E. Chapel has been scheduled for 6:30 p.m. Nov. 14 to precede a testimonial dinner for Assemblyman Chapel at 7:30 p.m., it was revealed here this week.

The reception and dinner, to be held in the Hollywood Riviera Club in southwest Torrance, is being arranged by Quentin C. McKenna.
